Wheatfeed	Wheat Flour
Wheat	Barley
Rape Seed Ext	Sunflower Ext
Molasses	Limestone Flour
Palm Kernal Exp	Vitamins & Minerals
Nutritionally Improved Straw	Vegetable oil
Citrus Pulp	
Biscuit Meal	

Growers Calf Rearing nuts (6mm diameter) may be introduced at 8 weeks of age by mixing with the previous diet. They are ideal to follow on from Growers Calf Starter Pellets or Growers Coarse Calf Mixture, as the continuity of flavouring allows for an easy transition between diets. This diet is designed to maintain healthy growth and can be fed up to six months of age.

Weaning should take place when animals are eating a minimum of 0.75kg (1.5lbs) per head per day, preferably 1kg (2lbs) per head per day.

Analysis and raw material list are correct at time of printing but may change without notice.
