Wheat Flour	

This is a high specification diet containing palatable ingredients and Biosaf\*.

Growers' calf pellets (3mm diameter) should be introduced at four days of age with clean hay and or straw, with a continual supply of clean, fresh water.

Calves should be moved onto Growers rearing nuts at 8 weeks of age. Weaning should take place when animals are eating a minimum of 0.75kg (1.5lbs) per head per day, preferably 1kg (2lbs) per head per day.

\*Biosaf is a natural yeast culture that is proven to increase solid food intake, nutrient digestibility and daily live-weight gain.

Analysis and raw material list are correct at time of printing but may change without notice.
