Growers Coarse Calf Mix is a digestible molassed coarse mix of cooked cereals along with the necessary vitamins and minerals required for good calf growth.

Growers Coarse Calf Mix should be introduced at four days of age with clean hay and or straw, with a continual supply of clean, fresh water.

Calves should be moved onto Growers rearing nuts at 8 weeks of age. Weaning should take place when animals are eating a minimum of 0.75kg (1.5lbs) per head per day, preferably 1kg (2lbs) per head per day.

Analysis and raw material list are correct at time of printing but may change without notice.
