

HI-FIBRE HORSE & PONY MIX

Available in 20kg bags

A palatable mix, high in fibre with added vitamins and minerals. It is ideal for horses and ponies at maintenance or in light work (e.g. hacking and schooling, 4-6 times per week). It is also suitable for horses and ponies who gain weight easily or for those prone to laminitis.

KEY POINTS:

- High in fibre which is ideal for horses and ponies at maintenance or in light work
- Slow releasing energy
- Non heating feed so less likely to produce excitable behaviour
- Low sugar/starch suitable for horses and ponies at risk from laminitis
- Low calorie suitable for good doers
- Added magnesium, well known for its calming properties
- Added Soya oil, ideal for improving coat condition and shine
- Limestone, providing additional calcium for strong bones and healthy growth.

ANALYSIS OF FEED

• Protein	9.5%
• Oil	2.5%
• Fibre	18%
