Vitamin E	(mg/Kg)	1,000	Zinc	(mg/Kg)	5,000
Copper	(mg/Kg)	2,000	Iodine	(mg/Kg)	500
Selenium	(mg/Kg)	30			

RAW MATERIALS

Calcium	18.97%
Phosphorus	7%
Sodium	7.86%
Magnesium	4%
Chloride	12.14%
Salt	20%

This is a high specification mineral supplement containing palatable ingredients for cattle. With high vitamin E and selenium levels, this product is designed to maximise animal health and immunity. As strong anti-oxidants, vitamin E and selenium work together to develop cell structure and can strengthen the cow's response against high somatic cell counts and mastitis. High phosphorous levels can help to reduce the incidence of deficiency, especially when supplemented to stock fed low levels of straights and compound feed.

Growers high phos mineral should be available with a continual supply of clean, fresh water.

DIRECTIONS FOR USE:

Cattle should be fed Growers mineral at the following rates:

Suckler Cattle: 100 . 150 grams/head/day

Dairy Cattle: 100 . 150 grams/head/day

Growing Cattle: 50 . 100 grams/head/day
