RAW MATERIALS

Calcium	14.67%
Phosphorus	2%
Sodium	9.83%
Magnesium	15%
Chloride	15.18%
Salt	25%

This is a high specification mineral supplement containing high levels of magnesium with added palatability for sheep. High magnesium supplements are critical to help prevent grass staggers commonly seen at spring turn out. Magnesium also plays an important role in enzyme activation and the nervous system. Also contains B vitamins for optimum energy metabolism and added protected zinc. Protected zinc plays a pivotal role in the creation of keratin which is a central element in skin health, wound healing and hoof growth.

Growers Extra Mag sheep mineral should be available, with a continual supply of clean, fresh water.

DIRECTIONS FOR USE:

Sheep should be fed Growers mineral at the following rate:

Sheep: 15 . 30 grams/head/day
