Copper	(mg/Kg)	2,000	Iodine	(mg/Kg)	250
Selenium	(mg/Kg)	25			

RAW MATERIALS

Calcium	11.030%
Phosphorus	2%
Sodium	9.83%
Magnesium	20%
Chloride	15.18%
Salt	25%

This is a high specification mineral supplement containing high levels of magnesium with added palatability for cattle. High magnesium supplements are critical to help prevent grass staggers commonly seen at spring turn out. Magnesium also plays an important role in enzyme activation and the nervous system. This product contains protected zinc which helps to stimulate the development of keratin which plays an essential role in hoof development and plugging the teat after milking.

Growers high magnesium cattle minerals should be available with a continual supply of clean, fresh water.

WARNING: Do not feed to intensively reared stock.

DIRECTIONS FOR USE:

Cattle should be fed Growers mineral at the following rates:

Growing Cattle: 50 . 100 grams/head/day

Dairy Cattle: 100 . 150 grams/head/day
