

## PRODUCT DATA SHEET

### ECO SUCKLER COW IN-FEED MINERAL Available in 20Kg packs

#### ANALYSIS

Vitamin A	(iu/Kg)	400,000	Manganese	(mg/Kg)	2,500
Vitamin D3	(iu/Kg)	80,000	Cobalt	(mg/Kg)	80
Vitamin E	(mg/Kg)	1,000	Zinc	(mg/Kg)	5,000
Copper	(mg/Kg)	2,000	Iodine	(mg/Kg)	250
Selenium	(mg/Kg)	30			

#### RAW MATERIALS

Calcium	17.45%
Phosphorus	5%
Sodium	9.83%
Magnesium	4%
Chloride	15.18%
Salt	25%

This is a good specification mineral supplement containing palatable ingredients for suckler cattle. With good vitamin E and selenium levels, this product is designed to maximise animal health and immunity. As strong anti-oxidants, vitamin E and selenium work together to develop cell structure and can strengthen the cow's response against high somatic cell counts and mastitis. Good phosphorous levels will help balance a low compound feeding system and can help bone strength, along with improving carbohydrate and energy metabolism, which is essential for optimum fertility.

Eco suckler cow mineral should be available with a continual supply of clean, fresh water.

#### DIRECTIONS FOR USE:

Cattle should be fed Growers mineral at the following rates:

Suckler Cattle: 100 . 150 grams/head/day

Dairy Cattle: 100 . 150 grams/head/day

Analysis and raw material list are correct at time of printing but may change without notice.
