RAW MATERIALS

Calcium	18.32%
Phosphorus	3%
Sodium	9.83%
Magnesium	5%
Chloride	15.18%
Salt	25%

This is a high specification mineral supplement containing palatable ingredients. Also contains B vitamins for optimum energy metabolism and a good level of zinc. Zinc plays a pivotal role in the creation of keratin which is a central element in skin health, wound healing and hoof growth.

Eco general purpose sheep mineral should be available, with a continual supply of clean, fresh water.

DIRECTIONS FOR USE:

Sheep should be fed Growers mineral at the following rate:

Sheep: 15 . 30 grams/head/day

Analysis and raw material list are correct at time of printing but may change without notice.
