Ash	8.00 %	Selenium	(mg/Kg)	0.4
Moisture	13.50 %			

RAW MATERIALS (in descending order of inclusion)

Wheatfeed	Beans
Wheat	Soya Bean Dehulled Ext
Rape Ext	Limestone Flour
Sunflower Seed Ext	Vegetable Oil
Palm Kernal Exp	Minerals & Vitamins
Molasses	
Citrus pulp	
Wheat Flour	

Growers Ewe Nuts (6mm diameter) are formulated from a range of ingredients selected for their nutrient consistency and customer acceptability, in order to meet the traceability requirements of retailers and processors.

Growers Ewe Nuts should be introduced 8 weeks before lambing at 0.2kg per day and gradually increased to 1kg per day at lambing. Continue feeding after lambing according to availability and quality of forage. Higher feeding levels may be required for ewes with triplets. Do not feed more than 0.5 kg in one feed.

Analysis and raw material list are correct at time of printing but may change without notice.
