Wheatfeed	Barley
Nutritionally Improved Straw	Sugar Beet Pulp
Non GM HP Soya Meal	Calcium Carbonate
Molasses	Vegetable Oil
Palm Kernal Exp	Salt
Rape Ext	Ammonium Chloride
Sunflower Ext	Vitamins & Minerals

Growers Lamb Pellets (3mm diameter) contain several features which promote successful and profitable lamb feeding

- Balanced levels of protein and energy for lean tissue growth
- Highly palatable to promote early intake
- High digestible fibre content to develop a stable digestive system
- Balanced mineral content

Lamb Pellets are suitable for use as a creep feed for lambs or as a Start to Finish ration. They may be rationed or offered ad-libitum depending on the speed of finish required.

A palatable source of long fibre should be available at all times.

Analysis and raw material list are correct at time of printing but may change without notice.
