

PRODUCT DATA SHEET

GROWERS POULTRY GROWER/FINISHER PELLETS

Available in 20Kg packs

Oil	3.00 %	Vitamin A	(iu/Kg)	8,000
Protein	16.00 %	Vitamin D3	(iu/Kg)	2,000
Fibre	3.75 %	Vitamin E	(iu/Kg)	20 (alpha-tocopherol)
Ash	6.00 %	Copper	(mg/Kg)	03 (cupric sulphate)
Moisture	13.50 %	Methionine		0.39%

RAW MATERIALS (in descending order of inclusion)

Wheat	Calcium Carbonate
Soya Bean Ext	Vegetable Oil
Wheatfeed	Methionine
Barley	Oregano Ext
Wheat Flour	Biomos
Dicalcium Phosphate	Vitamins & Minerals

Growers Poultry Grower/Finisher Pellets (3mm diameter) are manufactured from ingredients selected for nutrient consistency and consumer acceptability. The diet contains the correct balance of energy and amino acids to maximise growth rate and optimise feed efficiency.

Growers Poultry Grower/Finisher Pellets can be fed to growing poultry from 4 weeks of age to finish or to turkeys from 10 weeks to finish (see turkey data sheet for feeding recommendations)

Chicks should be moved onto Growers Poultry Grower/Finisher Pellets at 4 to 6 weeks of age depending on finishing rate and size of bird required. It is recommended that producers weigh their birds on a regular basis so that diet can be changed and correct finishing weights can be achieved. Growth rates may be slowed by diluting this diet with whole wheat.

Analysis and raw material list are correct at time of printing but may change without notice.
